

# HOW TO USE A SMARTBIT ATM

<https://smartbit.solutions>

# 2-WAY KIOSK

---

Most SmartBit Bitcoin ATM's are equipped to both sell AND buy Bitcoin, along with other cryptocurrencies where available.

Follow all on-screen instructions.

# HOW TO BUY CRYPTO

01

## CLICK ON BUY

Select Coin (Bitcoin, Litecoin, Ethereum, Zcash)

02

## CHOOSE AMOUNT

Additional verification may be required based on purchase amount.

03

## ENTER PHONE NUMBER

Enter SMS code sent to your phone on the ATM screen.

04

## CREATE PIN

First time users will be prompted to create a secure 4 digit PIN .

05

## ENTER WALLET ADDRESS

Manually enter or scan QR code of the wallet receiving the coins.

06

## INSERT BILLS

Insert EXACT amount of cash. Click Finish when done. Email or print receipt.

# WHAT'S NEXT?

You're done! You just completed your purchase of cryptocurrency. All purchases will be sent to your wallet once Blockchain confirms the transaction.

Transaction times will vary and are not controlled by SmartBit ATM.

# HOW TO SELL CRYPTO

## CLICK ON WITHDRAW CASH

Choose the coin you are selling (Bitcoin, Litecoin, Ethereum, or ZCash.)

## ENTER AMOUNT

Enter the amount of coins you are selling in USD.

## ENTER PHONE #

Enter SMS code sent to your phone on the ATM screen.

## SCAN QR CODE

Scan QR code provided to send coins to SmartBit.

## PRINT RECEIPT

Your receipt contains a Redemption Code needed to retrieve cash.

# WHAT'S NEXT

## TEXT MESSAGE

You will receive a text once  
Blockchain receives 2  
confirmations.

## ENTER CODE

Return to the ATM and  
enter the Redemption Code  
found on your receipt.

## COLLECT PAYMENT

Retrieve cash and receipt.  
All done!
